

Global Leader in Seismic Equipment Rental and Support Solutions Announces

New Operations Manager for Latin America

Houston, TX (March 8, 2013) – Seismic Equipment Solutions (SES) today announced that Mr. Chris Verret has joined the company as Operations Manager for its Latin America operations. Chris will be based out of the Bogota office.

“SES is a growing company with an excellent reputation for exceeding customer expectations,” stated President, Travis Barker. Chris has 35 years of experience in all aspects of geophysical operations and seismic processing in upstream oil & gas. He has specific expertise in seismic acquisitions and seismic processing applications. Combined with his results-focused approach, make him ideal for this role.

Prior to joining SES Chris was with Global Geophysical Services where he was a Resident Manager for operations in Bogota, Colombia. His diverse career experiences also include Land Sales Manager in North America for WesternGeco/Schlumberger, Area Geophysicist for Western Geophysicist South America, and a Project Manager for Halliburton Geophysical Services in both South America and Far East Regions.

Chris holds a Bachelor of Science degree in Energy Resources Management from Lamar University.
