

FOR IMMEDIATE RELEASE

Seismic Equipment Solutions Makes a Splash at SEG

Houston, TX (September, 2007) – With over 8500 participants and 348 exhibitors in the recent 2007 SEG International Exposition and 77th Annual Meeting in San Antonio, the show was deemed a great success. SES also came out in a big way this year with a new look, a larger presence and a new booth. Our new message “The Total Solution” represents the unparalleled value and synergy of combining Expert Field Support, Training, Equipment Repair, and Parts Sales with our world class lease pool of Land Seismic Equipment. We also showcased a number of new products including the SES Data Taxi, the Ultera Systems MDR Mirage Data Recorder, the Fujicara Fiber Optic Fusion Splicer, the Anritsu OTDR (Optical Time Domain Reflectometer) used for trouble shooting FO cables, and uniquely designed custom battery chargers built by SES. We appreciate all who stopped by to see us.

About Seismic Equipment Solutions

With headquarters in Houston, Texas, and representatives in Moscow, London, Calgary, Bogota, and Jakarta, SES is a global leader in seismic equipment rentals and support. SES provides exceptionally maintained lease equipment, field support, training, equipment repairs, and part sales.
